Negotiations with ANZ National concluding; Westpac ongoing

Our Finsec bargaining teams have been meeting teams from Westpac and ANZ National since this week, to negotiate collective employment agreements with both banks.

Negotiations with ANZ National are now concluded and are completing paperwork. Negotiations with Westpac are still ongoing.

Information on the outcomes from both sets of negotiations should be available early next week. There will be a full report back to all members next week, both on the outcomes of the negotiations and the next steps of the process.
